

Recreation Management Software Implementation and Support

REQUEST FOR PROPOSALS (RFP)

Recreation Software Implementation and Support

March 2026

Littleton Parks, Recreation, and Community Education, a department with an annual revenue estimated to be \$1,500,000, is seeking quotes from qualified vendors to provide a cloud-based recreation management software solution. The selected vendor will be responsible for software implementation, system configuration, staff training, ongoing support and services required.

DESCRIPTION OF SERVICES

This solution will serve as the primary platform for managing recreational programs, facility rentals, memberships, online registration, point-of-sale transactions, and communication with the public.

The purpose of this solicitation is to obtain a product that can:

- Streamline registration and scheduling processes.
 - Provide a user-friendly public interface for residents to register and pay online.
 - Centralize program management, staff access, and reporting tools.
 - Replace legacy systems with a modern, secure, cloud-based solution.
 - Provide comprehensive financial oversight for all programs with user friendly administration and the ability to create reports for regular presentations to Town officials upon request
-

PROJECT SCOPE

The successful proposer will provide a system with the following capabilities and will be able to adhere to the timeline set forth below:

1. Program Registration and Scheduling
 - a. Intuitive and user-friendly online registration. The interface emphasizes clarity, accessibility, and ease of use across all device types, including desktop, tablet, and mobile.
 - b. Seamless integration with public-facing calendars on Department Website (Civic Plus). It would be ideal if programs and activities could be filtered down to individual facility level.
 - c. Notification of wait list availability.
 - d. SMS and email messaging for alerts, reminders, and other important information.
 - e. Document management with both uploading of documents and digital signatures.
 - f. Intuitive and user-friendly online registration.
 - g. Ability to edit registrant settings by age and grade, resident or non-resident, and enter minimum and maximum seats available.
2. Membership Management
 - a. Customizable creation, management, and sale of various pass types (e.g., weight room, open gym, swimming, etc.).
 - b. Automated tracking for usage, renewals, and recurring passes.
 - c. Digital pass compatibility with smart devices (phone, watches, etc.). Ability to use barcode scanners for digital or physical passes.
3. Facility Rentals
 - a. Dynamic online reservation system for facilities, courts, shelters, and other amenities.
 - b. Real-time availability tracking with automated confirmations.
 - c. Smart scheduling to prevent double bookings.
 - d. Ability to show when an amenity is booked, open, or outside online booking permissions.
 - e. Electronic signature capability for permits and electronic documents.
 - f. Form/document management for seamless storage and process.
4. Point of Sales Module
 - a. Dynamic and ease of use.
 - b. Inventory tracking
 - c. System should be compatible with at least three options for receipt printers and cash drawers.
 - d. System needs to provide remote device updates as well as real time updates made in pricing or inventory.
5. Secure Payment Solutions
 - a. Software and vendor should provide payment processing. Processing model and rates to be included in proposal.
 - b. Contactless and tap-to-pay payment options. P2PE devices are required.
 - c. Compliance with PCI-DSS security standards.
 - d. Required Vendor Information: PCI DSS Level 1 certification documentation. Evidence of ongoing PCI compliance.
 - e. Explanation of transaction calculations and processing.

- f. Financial reporting capabilities and reporting on existing financial solutions.
- 6. Transaction Security
 - a. Encryption standards for all transactions.
 - b. Fraud detection and prevention mechanisms.
 - c. Measures to protect card data from interception.
- 7. Data Management and Reporting
 - a. Real-time data synchronization with secure cloud-based storage.
 - b. Comprehensive, customizable reporting tools for attendance, revenue, and financial tracking.
 - c. Interactive dashboards with live reporting capabilities.
 - d. Ability to export with specific parameters (filters) and to different mediums such as Excel, PDF, HTML.
 - e. Ability to integrate with real time dashboards and Tyler (MUNIS) financial software.
 - f. Ability to enter budget groups that are specific to our Town and Department and to update and edit them in real time.
- 8. Data Protection
 - a. End-to-end encryption for cardholder data.
 - b. Advanced tokenization for secure transactions.
 - c. Cloud native SaaS solution that runs on an underlying RDBMS capable of supporting high transactional throughput, concurrency, data integrity and Disaster Recovery and Business Continuity capabilities. Current City- County RDBMS standards are Enterprise Oracle and Sql Server. A deviation from this should be properly justified and well supported.
 - d. Compliance with all security architecture supporting RBAC and data level security. Support and adherence to cloud security standards and frameworks that includes ISO 27001, NIST security Framework, CSA's Cloud Controls Matrix and FedRAMP etc.
 - e. Load balanced capability for high availability both across the application ecosystem and support high availability with the underlying database platform.
 - f. Modular architecture to separate data access based on object level permission.
 - g. System for ensuring data entry consistency (e.g., data naming conventions) and set data standards with system validation.
 - h. Test and Development environments.
 - i. Privacy & governance: role-based access controls, audit logs, data retention, and incident response procedures.
- 9. User Experience and Accessibility
 - a. ADA-compliant interface with multi-language support. Accessible design, meeting WCAG 2.2 AA for all public and staff-facing pages.
 - b. Mobile app functionality for bookings, notifications, and program updates.
 - c. Single Sign-On (SSO) integration with social media accounts for customer accounts only.
 - d. Ease of use for both staff and customer-facing sides.
 - i. Customer specific requirements:

1. Mobile-first UX for browsing, registering, and paying for programs; clear program details, fees, and policies.
 2. Facility Reservations with photos/maps, instant-book and request-to-book modes, deposits, add-ons, price plans, and automated reminders. Real-time availability must prevent double-booking.
 3. Waitlist visibility (position shown in real time) and self-service actions for cancellations/refunds per PRCE policies.
 4. Membership passes accessible on mobile wallets; guest drop-ins without account creation (if enabled).
 5. Customer accounts should store historic information such as but not limited to payments, registration, rentals, passes, and sales.
 6. The customer must be able to edit and delete account information.
- ii. Staff specific requirements:
1. Role Based Permission levels.
 2. Program creation & scheduling integrated with facilities; session registration options; league management where applicable.
 3. Centralized approvals queue for permits/documents; configurable policies by facility type.
 4. Check-in & access control integrations with gates/doors/kiosks and Apple Wallet passes.
 5. Point-of-Sale (POS) for in-center sales (snacks/gear) with built-in accounting.
 6. Payments & refunds via a PCI-compliant processor (e.g., Stripe) with Apple Pay, Google Pay, stored cards; automated invoices and reminders.
 7. Reporting: customizable reports for revenue, expenses, participation, memberships, facility utilization; export/API options for finance systems.
 8. Ability to edit registrant settings by age and grade, resident or non-resident, and enter minimum and maximum seats available.
 9. Communications: built-in email and SMS; audience personalization capabilities.
 10. Data migration of historical registrations, accounts, and facility data; vendor-led migration to minimize staff lift.

10. AI-Powered Engagement

- a. Automated marketing tools powered by AI.
- b. Data-driven recommendations to enhance user engagement.
- c. Analytics for tracking promotion effectiveness and user behavior.
- d. An AI chat bot to assist in basic help functions.

11. Technical Support and Future Updates

- a. Comprehensive training and onboarding for staff. Admin/front-desk training, online tutorials, and knowledge base; on-site or virtual options.
 - b. 24/7 customer support.
 - c. Structured roadmap for future software enhancements. Centralized portal for service requests.
 - d. Partner success/support: dedicated account team; multi-channel support (email/chat/phone).
12. Device Security
- a. Robust security measures for tap-to-pay devices.
 - b. Remote device management capabilities.
 - c. Provide method for patching and updating software.
13. Software Solution Overview
- a. Detailed description of functionalities addressing Scope of Work.
 - b. Integration capabilities with existing Town of Littleton systems such as Tyler (MUNIS) software, Civic Plus website, Constant Contact. Ability to export data to excel, csv or another workable format.
14. Implementation and Support Plan
- a. Requirements Gathering, Implementation Planning, Deployment, testing, and training timeline. Initial go-live for core modules within ~4 months (migration, configuration, training), with options for faster facility-only launches as applicable
 - b. Details on ongoing technical support and system updates.
 - c. Automated software updates and patch management that are notified and communicated to minimize impact to operations and downtime.

PROJECT TIMELINE

The successful proposer will be able to adhere to the timeline set forth below:

- Initial set up:
 - March – award contract and complete a detailed schedule for software implementation.
 - April – Configuration of software to Littleton Parks, Recreation, and Community Education departments requirements.
 - May – Data Migration, if desired.
 - (Mid- May) Start staff training
 - (last week) start campaign to have current system account holders to create a new account in the new system.
 - June – Continue staff training and provide ongoing support and updates.
 - (last week) All fall 2026 programs are fully entered and registrations are open for participants to sign up.
 - July - Continue staff training and provide ongoing support and updates.
 - Continue providing ongoing support and updates.

For consideration, all proposals must provide the following information for evaluation,

- Cover Letter: Introduction of the vendor and an overview of the proposal.

- Description of offered services, detailing the ability to adhere to the items set forth in the Project scope
- Timeline: Proposed timeline for completing the initial setup and configuration, data migration, staff training and ongoing support and updates
- References: Contact information for the owners of all projects of similar work within New England for reference, including feedback regarding the vendors past performance in a similar implementation project.

GENERAL INFORMATION AND SUBMISSION OF PROPOSALS

Submission of a proposal is in two parts: the **Non-Price Proposal** and **Price Proposal** which must be submitted in separate sealed envelopes. These proposals must be submitted and stamped no later than 12:00 PM on March 27, 2026 to Kimberly Kouvo, Assistant Treasurer/Chief Procurement Officer, Littleton Town Offices, 37 Shattuck Street, Room 203, Littleton, MA 01460 and be clearly marked “Recreation Management Software Implementation and Support”.

The Town of Littleton reserves the right to reject any and all responses and to waive any minor informality in responses received whenever such rejection or waiver is in its best interest.

The Town of Littleton is an Affirmative Action/Equal Opportunity Employer. The Town encourages bids from qualified MBE/DBE/WBE firms.

The Tax Compliance Certification and the Certificate of Non-Collusion must be included with the response. These forms must be signed by the authorized individual(s).

Award date. Award will be made within thirty (30) days after proposal opening, unless the time for award is extended by mutual consent of all parties. All submittals shall be valid for a minimum period of ninety (90) calendar days following the date established for acceptance.

If any changes are made to this RFP, an addendum will be issued. Addenda will be emailed to all companies and individuals on record as having requested the RFP.

All questions regarding this RFP should be submitted in writing to kkouvo@littletonma.org no later than March 23, 2026. Responses to all questions will be shared with all potential proposers.

COMPARATIVE EVALUATION CRITERIA

The non-price proposals will be evaluated first by the Evaluating Team using the information listed in the non-price. A list will be developed of all proposals that meet the minimum criteria. Proposals that do not meet the minimum criteria will be judged non-responsive and will not be reviewed further.

Proposals that meet the minimum criteria will then be evaluated using the comparative criteria below. The Town, acting by and through the Town Administrator, will award the contract to the “responsive and responsible proposer” whose proposal is deemed the most advantageous, taking

into consideration all the minimum and comparative evaluation criteria and price. The initial award will be for one year with the option to extend for two additional one year terms.

The following Comparative Evaluation Criteria will be applied to those proposals that meet the Minimum Criteria listed below.

Each of the following criteria will be evaluated as: Highly Advantageous, Advantageous, Not Advantageous and Unacceptable.

Non-Price Proposal Evaluation Criteria

1. Relevant Project Experience

Evaluation of the vendor's experience with similar projects and qualifications of the proposed project team.

- **Highly Advantageous** – The proposer has completed more than **eight (8)** similar projects within the last five years. The proposed team demonstrates strong, relevant qualifications and extensive experience with similar work.
 - **Advantageous** – The proposer has completed **five (5) to eight (8)** similar projects in the last five years. The proposed team has relevant qualifications and experience.
 - **Not Advantageous** – The proposer has completed **three (3) to four (4)** similar projects, with limited relevant experience among key personnel.
 - **Unacceptable** – The proposer has completed **fewer than three (3)** similar projects or lacks relevant experience.
-

2. Timeline for Completion

Evaluation of the proposer's ability to complete the project within the required timeframe outlined above.

- **Highly Advantageous** – The proposer commits to completing the work in **in less than the required time frame** and provides a clear and realistic project timeline.
 - **Advantageous** – The proposer commits to completing the work in **the required time frame** and provides a generally reasonable timeline.
 - **Not Advantageous** – The proposer offers a timeline that **goes beyond the required time frame by no more than 30 days**, with limited detail or assurance.
 - **Unacceptable** – The proposer estimates a timeline of **31 days or more**, or fails to provide a credible timeline.
-

3. Methodology and Approach

Evaluation of the proposed plan of services, including the approach to completing the implementation and addressing the items outlined in the project scope.

- **Highly Advantageous** – The proposal includes a **comprehensive, detailed, and logical** plan that thoroughly addresses all project objectives and demonstrates a clear understanding of the project scope requirements.
 - **Advantageous** – The proposal includes a **clear and credible** plan that addresses most of the project scope objectives and shows general understanding of the work required.
 - **Not Advantageous** – The proposal lacks sufficient detail or clarity to fully evaluate its effectiveness; some project scope objectives are not clearly addressed.
 - **Unacceptable** – The proposal lacks major components or fails to address more than one project scope objective.
-

4. References

Evaluation of two (2) relevant references, of the Towns' choosing from the list of New England projects provided, regarding the proposer's past performance on similar projects.

- **Highly Advantageous** – The reference provides **outstanding feedback** regarding the proposer's quality of work, timeliness, and communication; no concerns reported.
 - **Advantageous** – The reference provides **positive feedback** with only minor concerns noted.
 - **Not Advantageous** – The reference includes **notable concerns** about quality, reliability, or communication.
 - **Unacceptable** – The reference is **negative** or reveals **significant issues** with past performance.
-

5. Use of Technology

Evaluation of the proposer's use of technology; including AI-powered workflows, Mobile first used experience (UX), unified operations platform, and secure cloud based real-time data sync and updates, etc.

- **Highly Advantageous** – The proposer is currently offering a fully integrated and useable AI tools built within the software. As well as a fully operational mobile application for customers and employees, all modules within the software are connected, and can provide secure cloud-based real-time data sync and updates.
- **Advantageous** – The proposer is currently offering a fully integrated and useable AI tool built within the software. As well as a fully operational website but will implement a mobile application in the next six (6) months, all modules within the software are connected, and can provide secure cloud-based real-time data sync and updates.
- **Not Advantageous** – The proposer is in the final execution phase of integrating AI into their software system that will be implemented in the next six (6) months. As well as a fully operational website but not a mobile application, some modules within the software are connected, and can provide secure cloud-based real-time data sync and updates.

- **Unacceptable** – The proposer has no AI features or mobile application and does not plan on integrating them. None of the modules within the software are connected, and cannot provide secure cloud-based real-time data sync and updates.
-

Price Proposal Evaluation (Opened Separately)

6. Price Proposal – Reasonableness and Clarity

Evaluation of the proposer's cost proposal in relation to the Town's budget and the clarity of pricing information.

- **Highly Advantageous** – The proposal is **well within budget**, clearly itemized, and fully transparent in its cost structure.
 - **Advantageous** – The proposal is **within budget**, with reasonable detail and clarity.
 - **Not Advantageous** – The proposal is **slightly over budget** and/or lacks full clarity or itemization.
 - **Unacceptable** – The proposal is **significantly over budget** or does not provide sufficient pricing information to evaluate reasonableness.
-

CERTIFICATE OF NON-COLLUSION

The undersigned certifies under penalties of perjury that this bid or proposal has been made and submitted in good faith and without collusion or fraud with any person. As used in this certification, the word "person" shall mean any natural person, business, partnership, corporation, union, committee, club, or other organization, entity, or group of individuals.

PROPOSAL CHECKLIST

In order to simplify the evaluation process and obtain the maximum degree of comparison between proposals, the Town has prepared this checklist for all responders to use in compiling proposals.

1. Non-price proposal
 - a. Cover Letter
 - b. Timeline
 - c. Response to Scope of work
 - d. References
2. Price proposal
3. Certificate of Non-Collusion
4. Tax Compliance Certification
